

**It's time to revolutionize your cleaning!
Go plastic free and switch to LoofCo.**

Loofah

Loofah plant is a vigorously growing vine from the cucumber family that is rich in durable fibres yet soft and flexible. Our loofahs are harvested, peeled, deseeded, then dried, cut into lengths and processed by hand. We add a cotton string to our loofah products for easy draining and drying.

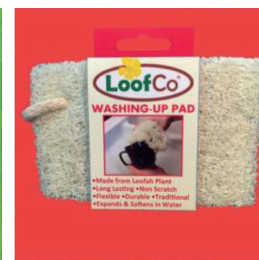

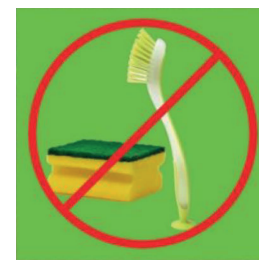

Coconut

Coconut coir is the naturally bacteria resistant, fibrous material found between the hard, internal shell and the outer brown coconut husk. LoofCo uses coir fibre that is a by-product of coconut food and oil production. We twist coconut coir fibre around a 100% recyclable, galvanised rust-proof metal core and add a metal hanging loop for easy use and draining.

WHAT IS LOOFCO?

LoofCo is our unique range of environment- friendly pads, brushes & accessories for washing-up, household cleaning & personal care. LoofCo is an alternative to mass-produced plastic sponges, brushes and scourers that will not biodegrade. Instead, LoofCo products are made with coconut and loofah plant, which are biodegradable, renewable raw materials.

LoofCo products are skilfully created in Sri Lanka and Egypt, inspired by traditional designs that have been proven over generations. This supports local farming practices and production workers who are always treated fairly. In addition, all LoofCo products are Vegan.

WASHING-UP PAD

Rectangular pad made from loofah with a cotton string hanging loop. Use with warm water and washing-up liquid. In water it becomes a flexible pad, suitable for your washing-up needs.

WASHING-UP PAD: 2 PACK

Two rectangular pads made from loofah with a cotton string hanging loop. Use in warm water with washing-up liquid. In water they become flexible pads, suitable for your washing-up needs.

WASHING-UP BRUSH

Easy to grip hand-held coir fibre brush with metal hanging loop. Use in warm water with washing-up liquid. Strong enough for scrubbing pans, small enough to reach into cups. Effective on crockery, cutlery, pans and woks.

CLEANING PAD

Layers of loofah stitched together for extra scrubbing power with cotton string hanging loop. Use with warm water and cleaning product. In water it becomes a supple yet robust pad, perfect for surfaces, baths, sinks, tiles & taps.

WASHING-UP BRUSH WITH HANDLE

Coconut coir fibre brush with a rubberwood handle. Perfect for everyday washing up and robust enough for heavy duty scrubbing. The angled head is designed to reach into cups and pots and for pressure to be applied to really scrub at baked-on food!

BOTTLE BRUSH

Long coconut coir fibre brush with rubberwood handle. Designed with cleaning and recycling in mind, it can reach into jars, bottles and tins to clean them ready for recycling. Also perfect for cleaning items such as water bottles, tea pots, juicer blades, inside dishwasher filters and more!

MINI SCRUB BRUSH

IA small yet robust coir brush that is perfect for scrubbing sinks, chopping boards, pans and getting into corners. Great size for camping and travel. Use with warm water and washing-up liquid or cleaning product. After use hang to dry from the convenient metal hoop.

WASHING-UP SCRAPER

An ingenious, hard-carved traditional use for the outer husk of a coconut. A 100% biodegradable alternative to plastic washing-up scourers. Fits neatly in the hand and is ideal for removing baked-on food from pans and baking trays without scratching.

ROOT VEGETABLE SCRUBBER

Tapered loofah pad with a cotton string hanging loop. A must-have for cleaning muddy vegetables. Use with water on the wet skin of root vegetables to lift off soil & debris. Soft and flexible in water.

SCRUBBING BRUSH

Sturdy, easy to grip hand-held coir fibre brush with metal hanging loop. Its durability and size make it perfect for garden jobs like cleaning pots, scrubbing wooden garden furniture, patio and outdoor tiles.

BATH-TIME LOOFAH

Layers of loofah stitched together into a delightful heart shape. In the bath or shower, use this soft, spongy pad with soap on damp skin in a gentle circular motion to clean, freshen, and exfoliate skin.

BODY LOOFAH

A slice of loofah with a cotton string loop. Immersed in water it swells up to become a soft & supple pad. In the bath or shower, use with soap on damp skin to clean, freshen and invigorate skin.

LoofCo Washing-Up Soap Bars are an alternative to plastic bottles of washing-up liquid. Created by expert soap makers using traditional methods, our soap bars contain pure coconut oil and complete the plastic free washing-up experience.

TO USE: Create lather with warm water onto a brush, sponge, scourer or cloth. Wash item and rinse.
TOP TIPS: Use with our LoofCo Washing-Up Pad or Brushes for a plastic free clean! Our soaps are perfect for handwashing laundry too!
