## Made from 100% Sustainable Bamboo

Made from 100% natural, ultra-sustainable bamboo, our toilet tissue is soft and strong three ply. Each roll contains 200 sheets and arrives in 100% plastic-free packaging, making them super sustainable and a standout product on shelves. The Cheeky Panda Toilet Tissue is the first toilet tissue to be registered vegan with The Vegan Society in the UK! It also produces 65.5% fewer carbon emissions than your standard, virgin-sourced toilet tissue to further help you meet your sustainability targets. This product was also the winner of the Ocado Rising Star Award for ‘Best Plant-Based Product’!

- **Super Sustainable** - Made from 100% bamboo, The Cheeky Panda’s toilet roll produces 65.5% fewer carbon emissions than standard toilet tissue too!
- **Natural & Skin Friendly** - No chemical nasties, just pure, plant-based natural ingredients and naturally hypoallergenic material
- **Long Lasting** - Each roll contains 200 sheets
- **Kind to Animals**- Certified vegan friendly
- **Kind to the Planet** - The Cheeky Panda donate part of every pack purchased to the World Land Trust to help protect the rainforests.
- These tissues are **dust free** and **dermatologically** tested.
- Ingredients: **100% Bamboo**
- Made in China, Designed in the UK

Although these rolls are small, there are plenty of sheets and they last me ages. I’m old enough to remember having to use something akin to greaseproof paper at primary school post war so with a lifetime of experience I can confidently say that these are extremely pleasant and comfortable to use and, considering how thin the paper is, ably strong and fingerproof. I love them.

*Love these loo rolls!*  
Not only are their eco credentials fantastic, the loo rolls themselves are great too - so you don’t need to compromise on quality to be more environmentally friendly.

*Just as good as Andrex, which we previously used.*  
The toilet paper is great quality and does not fall apart easily, as has been the case with other “eco” options. The cardboard box is full so there is no waste of space either and the box is tall rather than wide so it can fit in cupboards easier which is really helpful.

*Excellent product, will buy again*  
I’m really pleased with these, they hold together better than normal paper and therefore you need less and no accidental tears. Whilst these are more expensive, i will continue to buy them as i think the cheaper ones are a false economy, plus these help the planet and no plastic which was the main reasons for me trying them.

# Plastic-Free Bamboo Pocket Tissue

Made from 100% Sustainable Bamboo

Introducing the world’s first plastic-free Pocket Tissues! Launching in March 2018, The Cheeky Panda’s bag-friendly tissues offer all the usual bamboo goodness you’ll find in our tissues, handily housed inside a compact, plastic-free cardboard case that’s easy to take on-the-go! Naturally hypoallergenic, super-soft and eco-friendly, they’re perfect for those times you come over in fits of sneezes and sniffles while you’re out and about.

- Our bamboo is **100% FSC certified** and not the same type of bamboo that our panda friends chomp down on.
- Dermatologically tested on sensitive skin
- Free from irritating dust, B.P.A., Chlorine bleach and fragrances.
- This is nation’s **first vegan tissue**, silky soft and perfectly strong.
- Part of every pack sold donated to support charities
- Ingredients: **100% Bamboo**
- Made in China, Designed in the UK

*Would definitely buy again*

These tissues are really good. They recently stood up well to my mega cold. They felt soft against my skin, so no sore nose. They were strong enough to stand up to the trumpet blows and sneezes, they didnt fall apart. Nice size and they resemble the tissues I am used to using, Bonus, they are kind to the environment!

# Plastic-Free Bamboo Kitchen Towel

Made from 100% Sustainable Bamboo

The Cheeky Panda’s plastic-free Kitchen Roll are ideal for those inevitable kitchen spillages. Released in March 2018, our super strong and absorbent towels are perfect for all your household needs. Not only that, but these handy kitchen accompaniments are completely dust-free, so they’re not only great for cleaning glass and mirrors, but they’re also superb for sensitive skin and allergies!

- **Renewable** Made from 100% bamboo, The Cheeky Panda’s kitchen roll is super sustainable and fully recyclable
- **Natural & Skin Friendly** No chemical nasties, just pure, plant-based natural ingredients. The Cheeky Panda’s toilet roll creates less tissue dust, so is perfect for sensitive skin
- **Strong and Absorbent** - Perfect for cleaning kitchen stains and spills
- **Kind to Animals**- Certified vegan- friendly and cruelty-free! We never have and never will test on animals.
- Ingredients: **100% Bamboo**
- Made in China, Designed in the UK

*Ethical product, good quality*  
It’s great when you swap a product that you use every day for a more ethical version. The bamboo used in this product is not the same that is eaten by pandas, and it grows ten times faster than trees. The rolls are not plastic wrapped they are paper wrapped - *what else can you ask for?*

# Antibacterial Wipes

Made from 100% Sustainable Bamboo

The Cheeky Panda’s Antibacterial Wipes are perfect for all of your household cleaning needs. Launching in February 2020, these eco-friendly, super sustainable wipes are made from 100% bamboo and are completely biodegradable - meaning you won’t find any pesky microplastics, unlike most wipes on the market. These bacteria-beating wipes kill germs easily, and we’ve got the certificate to prove it!

- **Multipurpose** - The Cheeky Panda’s antibacterial wipes clean any surface quickly and easily, no sprays or other surface cleaners required
- **Biodegradable** - Once they’ve been used, simply throw these wipes into the compost bin and they will naturally biodegrade over time, unlike most wipes
- **Only natural ingredients** - No chemical nasties, just pure, plant-based ingredients made using bamboo and 99% purified water, free from fragrance, fertilisers, pesticides and chlorine bleach - tough on dirt and stains but kind to skin
- **100% Sustainable** - Using fast-growing, FSC approved bamboo fibres, The Cheeky Panda’s antibacterial wipes are sustainable and renewable.
- **Kind to Animals** - Certified vegan-friendly and cruelty! They never have and never will test on animals
- Ingredients: **100% Bamboo**
- Made in China, Designed in the UK

*Strong and a good size cloth*  
Bought these wipes as like most people we are all keeping our houses clean and bug free at the moment. They are just moist enough to do a good wiping around without being too wet and leaving a wet surface. They appear to be long lasting depending on how much you clean within one room, plenty of wipes in a pack too. Can’t really comment on the scent as I have no sense of smell but family said they smell lovely and fresh. Will definitely continue using these in the future as they are buyer decoratable.

# Biodegradable Bamboo Handy Wipes

Made from 100% Sustainable Bamboo

Our bamboo Handy Wipes were developed thanks to our close relationship with Boots UK. The pharmaceutical company were very keen on expanding their wet wipes range and including a super-sustainable addition. Launching in the UK in April 2019, they're perfect to help you keep clean on the go thanks to their all-natural composition of bamboo. They're safe to use on your baby's skin too!

- Mother nature's answer to keeping clean on the go.
- Use the cheeky wipe on all areas, so gentle even babies love them!
- Completely biodegradable, infused with 99% purified water and 1% Aloe Vera & fruit extract.
- Part of every pack sold donated to support charities
- Vegan formula & cruelty free
- Ingredients: **100% Bamboo**
- Made in China, Designed in the UK

*Amazing!*  
I had seen a lot of people saying how great these were and HAD to try them. I can genuinely say I am not dissappointed. Yes, they are a bit on the expensive side but they re biodegradable, made of natural ingredients, they're so soft and not harsh on skin and absolutely NO ALCOHOL. That was a big selling point for me as I am allergic to alcohol so many of the antibacterial wipes aren't suitable for me!

# Biodegradable Bamboo Baby Wipes

## Made from 100% Sustainable Bamboo

The Cheeky Panda Baby Wipes were first ever foray into the world of baby products! Launching in April 2019, our CEO wanted to have the finest quality wipe to use on her new-born son’s skin, so... she made her own! Our baby wipes were voted Product Of The Year 2020 in the UK and are one of our bestsellers worldwide. Unlike 90% of wipes on the market, you won’t find any microplastics here, which makes them 100% biodegradable AND compostable, too.

- The Cheeky Panda wipes made with **100%** natural bamboo fibre and are completely biodegradable and soft like a Panda!
- Our wipes are whipped up from biodegradable bamboo (*instead of non-biodegradable and ocean-polluting polyester*); dermatologically tested, proudly vegan and never (*ever*) tested on our animal friends.
- The wipe does not contain one bit of plastic, unlike 90% other wipes on the market!
- Our wipes break down and compost in just 3 weeks.
- Sensitive skin-friendly, vegan certified, cruelty free approved, hypoallergenic and unscented.
- Ingredients: **100% Bamboo**
- Made in China, Designed in the UK

*Thank goodness these are biodegradable!*  
It is awful to see how many baby wipes are filling our rivers and oceans. It’s wonderful to see there is a biodegradable alternate. Please consider using these insetad of other wipes. The planet will thank you!

These are my favourite wipes for my baby. We had to try so many and these are the best ones on the market. My baby had an eczema and have very sensitive skin and these are no harm to his skin at all. Also they not as watery or too dry. They easy to pull it even sometimes they get stuck together, but otherwise still better than other wet wipes I’ve tried.

# Bamboo Nappy Pants

## Made with 100% Sustainable Bamboo Lining

The bamboo baby nappies were launched in 2020 as an addition to our baby range. The product has been refined and is now one of the most sustainable nappies on the market, with 86% of components being completely biodegradable. The bamboo fibre lining makes them extremely soft and suitable for baby’s sensitive skin, with the nappies featuring Aqua-Lock technology to protect against spills and leaks. They are currently available in the UK in Whole Foods, WHSmith, and many more retailers.

- Your cheeky little panda will be free to crawl, wiggle and dance in the **comfy, soft** and **stretchy** waistband with durable side stickers.
- Our Bamboo nappy is coupled with premium ‘**Aqua Lock**’ technology, so your baby stays extra dry for longer periods between changes (so you and your baby can have a good night’s sleep!)
- Our nappies are specially designed to reduce rashes by being naturally **hypoallergenic**, and infused with a touch of Aloe Vera, just like our baby wipes.
- Ingredients: **100% Bamboo Lining**
- Made in China, Designed in the UK

We chose these nappies because they are kind to our babies skin and the environment.

# Bamboo Sip Straws

Made from 100% Sustainable Bamboo

Our bamboo Sip Straws are The Cheeky Pandas solution to help reduce plastic waste in the world of catering. They sit snug in your glass and are perfect for cocktails and short drinks. Not only is the packaging plastic-free, the 100% bamboo straw itself is now one of the most sustainable straws on the market. They’re strong and durable, and have made their way into a variety of different pubs, bars, stadiums and retailers.

- **Perfect for cocktails** – Smaller straws ideal for cocktails like a martini
- **Sustainable** – Made from 100% FSC-approved bamboo, The Cheeky Panda’s sip straws are ultra-sustainable and have little impact on the planet and turtles!
- **Plastic-free** – With packaging made from recyclable cardboard and straws made from fast-growing bamboo, every aspect is biodegradable
- **Kind to Animals** – Certified vegan-friendly and cruelty-free! We never have and never will test on animals
- **Long Lasting**– 250 straws per pack
- **Super Strong**– Unlike most paper straws, ours won’t break down after getting wet
- **Bore Size** - 6mm
- Ingredients: **100% Bamboo**
- Made in China, Designed in the UK

*Perfect for Gin*  
Normally the standard size straws you put in proper Gin glasses hang over the edge, these are a perfect size for gins or cocktails. I love the fact that they are really sustainable but they are also super durable in your drink.

*Finally a strong enough alternative to plastic straws*  
These sip straws look great in my homemade cocktails. Plus they have yet to go soggy after sitting in my drink for a long time. Great purchase and better for the environment!

*Amazing for smoothies and milkshakes*  
These straws are super wide so bigger bits of fruit from smooties or thick milkshakes don’t get stuck in them. You get loads in a box and they’re really sturdy, they don’t disintegrate or break down at all. Love the colour too!

*Milkshake problems solved*  
I love a milkshake but the straws are awful, becoming hard to suck through by the halfway point, so now I carry these in the car. They are brilliant and the kids love them, increases the milkshake experience 100%. No more soggy straws and they are sustainable!
